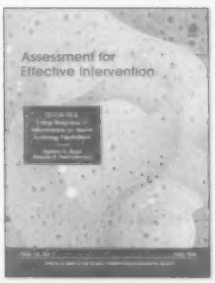
Assessment for Effective Intervention

Editors: Nick Elksnin *and* Linda K. Elksnin



Assessment for Effective Intervention (AEI) presents manuscripts relevant for educational diagnosticians, special educators, school psychologists, academic trainers, and others interested in psychoeducational assessment. Each article in AEI clearly communicates the empirical evidence that has direct and timely implications for practitioners. Published quarterly, AEI provides critical analysis of practitioner-developed assessment procedures, as well as papers that focus on published tests.

AEI regularly features articles that:

- describe the relationship between assessment and instruction;
- introduce innovative assessment strategies;
- outline diagnostic procedures;
- analyze relationships between existing instruments; and
- review assessment techniques, strategies, and instrumentation.

AEI is the official journal of the Council for Educational Diagnostic Services.
